THE **STRENGTHS** OF OUR MULCHERS

Saving time: continuous hydraulic setting of the working depth from the cab thanks to the 3rd hydraulic point.

Profitability: high work flow and low cost of wear parts.

Exceptional mixing quality: the helical teeth ensures a homogeneous mix, reducing power demand and increasing fertility.

Heavy-duty design inspired by Publics Works thanks to the use of high-quality materials.

Simplicity and reliability of the kinematics (with few maintenance) allows a profitability gain.

Design in the rules of mechanics

Fuel-efficient due to low drawbar pull

Cost of use per hectare below all competitors
