THE **STRENGTHS** OF OUR MULCHERS

Saving time: Continuous hydraulic setting of the working depth from the cab thanks to the 3rd hydraulic point.

Profitability: High work flow and low cost of wear parts.

Exceptional blending quality: The hammers helical disposition ensures a homogeneous mix, reduces the power demand and increase the fertility.

Heavy-duty design inspired by Publics Works thanks to the use of high quality materials.

Simplicity and reliability of the kinematics (with few maintenance) allows a profitability gain.

Design in the rules of mechanics.

Fuel economy.

Cost of use per hectare under all competitors.
